Brand New Book ***** Print on Demand *****.Excerpt from **A Handy Book for Planters and Lovers of Nature: With Valuable Hints in General** Planting of all kinds has been carried out on an enormous scale, and to a great extent it is largely due to many well-to-do settlers who have their estates laid out in beautiful country homes. For the past twenty years there has been more of this interesting work done than ever has been known in this country before, and! many hints have been given to aid this interesting work. However many writers and advisors of this great problem do not always realize that this kind of work chiefly depends on the different locations, climate and soil. It will therefore be almost impossible for anyone without practical experience to be a trustworthy guide. For the past twenty years there have been many questions submitted from all parts of the country and the writer finds great pleasure in giving the result of his long experience in this direction. The Preparation For Planting. It is of great importance to have the ground and soil ready in time before planting. It will not only save time but it is also a benefit to the plants, and the planting is done at less expense. A compost has proven to be of great value, not only for greenhouse purposes, but should be made on every gentleman s estate, and should be used not only for planting, but also to serve as a top dressing, for lawns and flower beds, and particularly where the ground is found to be of stiff clay or red shale. It will prevent the ground from cracking, which is often the case. Humus...
