Brand New Book ***** Print on Demand *****.Want to know where we are headed along the trajectory set by Barack Obama and his liberal-Left allies? A close look at the militantly-secularist, hyper-regulatory British nanny state is the best possible predictor of America s own bleak future if we don t change course. In **PORTRAIT OF AN OBAMA NANNY STATE**, F. LaGard Smith presents scores of news reports from the British media documenting Britain s breathtaking descent into a tyrannous democracy dictating every aspect of daily life and threatening even the most fundamental freedoms of faith and expression. Smith warns of a political and cultural tsunami headed across the Pond as the same forces of liberal-Left secularism in America are creating a moral vacuum that can only be filled with rule upon rule, happily imposed by enlightened nannies at every level of society. Key chapters focus on the impact of a nanny state on the family, education, healthcare, faith, and public morals. The chapters addressing gay rights and the teaching of macro-Evolution drill down deeply into the soul of a nation, exploring the crucial relationship between morality and public policy.
