HOG MANURE MANAGEMENT, THE ENVIRONMENT AND HUMAN HEALTH

Book Condition: New. Publisher/Verlag: Springer, Berlin | This volume provides a current look at how development of intensive live stock production, particularly hogs, has affected human health with respect to zoonotic diseases primarily transmitted by food but also by water, air and occupational activity. While information presented focuses on the development of increasing livestock production in Canada, examples are given and comparisons are made with other countries (Denmark, Taiwan, the Netherlands and the United States) where the levels...
