DOWNLOAD

Oxford University Press. Paperback. Book Condition: new. BRAND NEW, Nursing: Transition to Professional Practice, Rob Burton, Graham Ormrod, To successfully complete the transition from being a final year pre-reg nursing student to becoming a qualified staff nurse, students need to understand and practise the responsibilities and roles of the registered nurse. Consequently, they need a textbook which goes further than simply outlining the theory of leadership and management and teamwork and gives more than just 'tips' for being in charge. Nursing: transition to professional practice has been developed as a one-stop-shop for the principles of professional practice and the skills of the qualified nurse. Taking a logical approach, the authors introduce the role of the qualified nurse before explaining what it means to be in charge, how to deliver good care, how to make legal and ethical decisions, and the best ways to work with and teach other staff. Theory is applied to clinical work so readers can easily see the rationale behind daily decisions. Useful for the entire final year, the content is mapped against the transitional module and extremely useful for final year placements as well as providing tips on getting a job and continuing professional development. Written in an easy to read, student friendly manner the authors have brought together trustworthy and reliable advice in a way that is easy to dip into any time you need it- from writing an assignment, devising a nursing plan, documenting your placement learning outcomes, or finding advice on job applications. This book has been truly designed to help student nurses become registered staff and to prepare for practice. Online material - Interactive cases on common scenarios and problems that the Newly Qualified Nurse needs to manage . - Job hunting section with practical exercises and sections on writing CV's, interview...
